Jam Magno, inasar ang mga DDS na pumupuna sa pagsakay ni Mayor Leni Robredo sa bus.

"Tigilan niyo na nga ang pangingialam kay Leni kung nagba-bus siya. Hindi naman nakakabawas ng pagkatao ang pagsakay sa bus, teh. **Yung idol niyo, gusto niyong maging presidente pero wala namang kakayahan. Samantalang si Leni, kahit nagba-bus lang, nagtatrabaho talaga.** Eh yung idol niyo? Mmm, ewan ko na lang."

Honestly at this point I think nangt-troll na lang si Madam. I think she's 100% aware na bawat picture na ipopost nya gagawan nila ng issue. Unbothered era na talaga sya. More pics pa sana para lalong ma-stress yung mga DDS.

Funny to think na nakabantay sa bawat post yung mga taong nagsasabing "irrelevant" siya.

A new footpath stretching around the entire coast of England has officially opened.

At 2,689 miles long, it is the longest managed coastal walking route in the world, according to Natural England, the government body which created it.

For the first time, the King Charles III England Coast Path creates a continuous trail, allowing walkers to explore England's shoreline step by step.

At an average of 15 miles a day, it would take almost half a year to complete, assuming no rest days.

Our Climate Editor Justin Rowlatt takes a look.

Iran's Intelligence Minister Esmaeil Khatib was reportedly killed in a precision strike, according to a senior Israeli official. Khatib was said to oversee Iran's global intelligence and covert operations network, including alleged sleeper cells worldwide. The strike is believed to involve coordinated intelligence efforts between the United States and Israel. Officials claimed his network targeted American figures, including U.S. President Donald Trump. The U.S. had previously offered a reward for information on Khatib.

In a Facebook post on Thursday, Robredo said it was the first time during her term that she fell ill enough to be absent from the office. She also shared a screenshot of a conversation with her daughters, Aika and Jillian, who advised her to rest.

"First time during my term that I got sick, enough to keep me away from the office. Apologies to those who had events I failed to attend," she wrote.

Iranian President Masoud Pezeshkian condemned the assassination of high-ranking officials, including Ismail Khatib, Ali Larijani, Aziz Nasirzadeh, and military and Basij commanders.

Pezeshkian extended condolences to the families of the victims and the people of Iran, calling the attacks cowardly and affirming that the officials' mission will continue more steadfastly than before.

Masoud Pezeshkian
@drpezeshkian
The cowardly assassination of my dear colleagues Ismail Khatib, Ali Larijani, and Aziz Nasirzadeh, alongside some of their family members and accompanying team, has left us in deep mourning.
I extend my condolences to the great people of Iran for the martyrdom of two cabinet members, the secretary of the Shura, and the military and Basij commanders. I am certain their path will continue more steadfastly than before.

Not the best day ever..... Today I had another scan of my brain followed by further discussions with the neuro-oncology team who continue their wonderful care. There seems to be further progression of my brain tumour (glioblastoma) affecting brain functioning (as me and a few close friends can feel/see). Whilst it is a bit disappointing, in the big picture it's not the end of the road and I've got more to do! I love and enjoy challenges. I certainly haven't stopped yet. Hopefully I can share more special times with family and friends, and continue to advocate for cancer patients.

A Day Etched in History

September 11, 2001, is a day forever etched in history. The tragedy at the World Trade Center brought unimaginable loss and sorrow, taking thousands of innocent lives in just a few hours.

Yet, even in the face of such darkness, we witnessed courage, unity, and compassion. Heroes emerged, and humanity stood strong together.

Today, we remember every life, every story, and every sacrifice.

Translated from Spanish Show original

As you well know @e.espectador in Colombia there isn't a single investigation into my relationship with drug traffickers, for one simple reason: never in my life have I spoken with a drug trafficker, on the contrary I dedicated ten years of my life, and at the risk of my own existence and provoking the exile of my family, to denouncing the links between the most powerful drug trafficker and the politicians in the Congress of the Republic and the local and national governments with these narcos in what was called at the time the era of paramilitary governance.

Regarding my campaigns I have always told managers that no donations are accepted from bankers or narcos. The productive and intense investigation into my presidential campaign would not describe even a single peso from drug traffickers because it is forbidden and my personal principle as a political leader.

So those probes in the US will serve me to dismantle the accusations from the Colombian far right that one is indeed articulated all the way to the teeth with the drug traffickers of Colombia

Kinaaliwan ang isang usapan na naglalaman ng well-wishes ni Tatay Cres sa kaniyang anak na si Jamie na kasalukuyang nasa Dubai.

Dahil sa auto-correct, aksidenteng naisulat ni Tatay Cres na "may awa ang Dinosaur" sa halip na "may awa ang Diyos."

Bagaman mabilis na naituwid ang kaniyang mensahe, hindi na nakaligtas sa mga netizens ang "Dinosaur" typo na naging tampok sa isang nakaaaliw na TikTok trend.

Ayon kay Jamie, sila ay kasalukuyang nakararanas ng pagbagsak ng debris mula sa mga naharang na missile at drone kaugnay ng patuloy na alitan ng Iran, Israel, at US.

Donald J. Trump
@realDonald Trump
We are getting very close to meeting our objectives as we consider winding down our great Military efforts in the Middle East with respect to the Terrorist Regime of Iran: (1) Completely degrading Iranian Missile Capability, Launchers, and everything else pertaining to them. (2) Destroying Iran's Defense Industrial Base. (3) Eliminating their Navy and Air Force, including Anti Aircraft Weaponry. (4) Never allowing Iran to get even close to Nuclear Capability, and always being in a position where the U.S.A. can quickly and powerfully react to such a situation, should it take place. (5) Protecting, at the highest level, our Middle Eastern Allies, including Israel, Saudi Arabia, Qatar, the United Arab Emirates, Bahrain, Kuwait, and others. The Hormuz Strait will have to be guarded and policed, as necessary, by other Nations who use it — The United States does not! If asked, we will help these Countries in their Hormuz efforts, but it shouldn't be necessary once Iran's threat is eradicated. Importantly, it will be an easy Military Operation for them. Thank you for your attention to this matter! President DONALD J. TRUMP

My heart is heavy hearing about the passing of my friend the legendary Chuck Norris. He was truly one of a kind the real deal. I've never met a nicer person in my life. Not only was he a badass, but he was a good man through and through. One of the greats, without question.

My thoughts are with the Norris family. 🙏
